CROSS CONNECTION CONTROL SURVEY

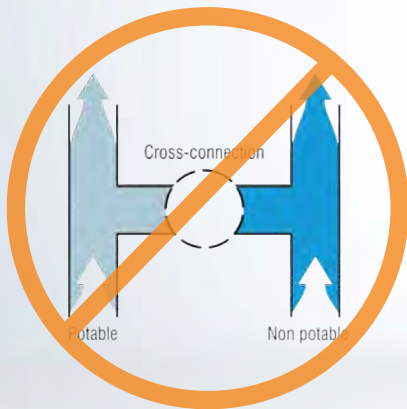

Critical Compliance Alert: Section 3.1.4 CCPH

All public water systems (PWS) must submit a written Cross-Connection Control Plan (CCC) to the state Water Board for Review by July 1, 2027

Protecting Your Water Quality

Heritage Systems Inc. is proud to offer **initial and ongoing professional hazard assessment services**

Our certified technicians identify potential risks, evaluate backflow prevention assemblies and ensure your facility complies with all state drinking water regulations

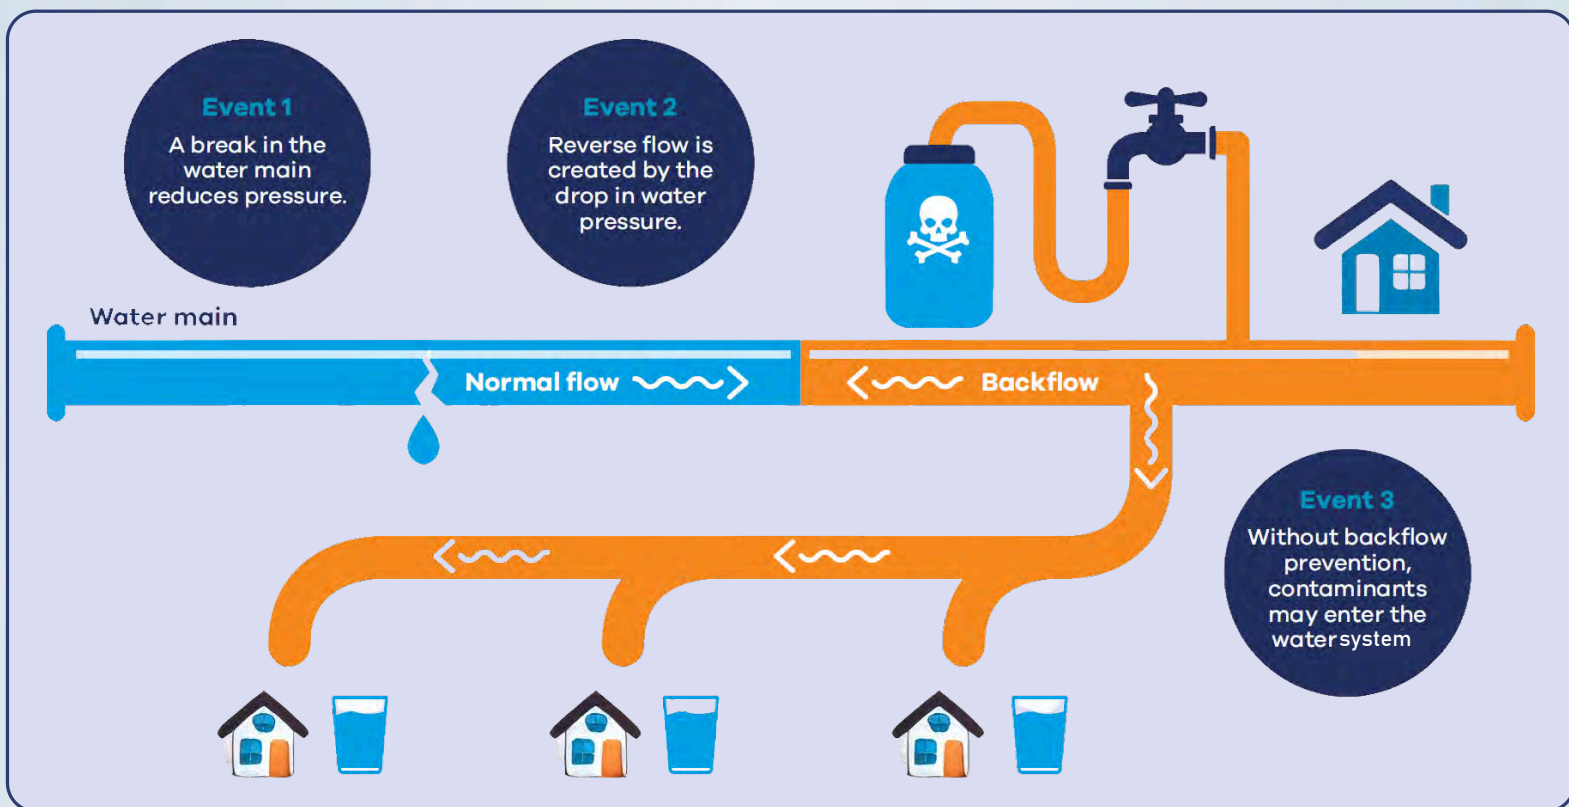

Rate Structure:

\$175/Hr

(The size and complexity of the facility will determine the total hours needed)

How Back Flow Can Affect Your Water:

Backflow preventers keep contaminants from flowing back into the drinking water system. Save on unnecessary treatment, identify coliform sources and protect your water systems with a hazard assessment.

KEEP YOUR WATER SYSTEM SAFE FROM EXTERNAL CONTAMINANTS
